Date 15<sup>th</sup> of August 2011

Dear Chris,

In response to your request for us to comment on the design of your dog wash trailers and the dog friendly aspect of the design.

As the Founders of the largest dog training company in the world, we know dogs very well and we believe that this puts us in a position to comment on what makes dogs feel comfortable and safe, when it comes to entering confined spaces.

We are very familiar with the design of the 'Aussie Pooch Mobile and many of the other 'dog wash trailers' being used for washing dogs and we believe that it is in our opinion that theirs (Aussie Pooch Mobile) is a very dog friendly design.

We see that the open air aspect of the trailers allows for a lot of airflow into the trailer providing a safe comfortable place for the dog and person washing the dog.

We are willing to provide any further comments as requested.

Sylvia Wilson
